

## **Best Practice No. 01**

### **Title of the Practice: “Social Service”**

#### **Keywords:**

Society, service, institution, village, needs

#### **Goals and Objectives**

1. To render social service to the society.
2. To create a bonding between institute and society.

#### **Context:**

The institution needed to address the contextual features or challenging issues in designing and implementation of “Social Service” are as follows:

The Sankeshwar town is surrounded by several villages with primary occupation of farming and dairy. The rural lot surrounding Sankeshwar needs societal assistance from nearby organisations. The institute has taken a lead role in associating with the society and catering to their needs.

#### **The practice:**

The “Social Service” is planned and implemented through the institution’s cells like NSS, NCC, Scouts & Guide etc. These and the institution as a whole prepares programmes to visit the villages and conduct activities like Tree Plantation, Health Check-up Camps, Veterinary Camps, Awareness Rallies and Special Lectures (HIV, Literacy, Social Evils, Law etc).

#### **Evidence of success**

The above elaborated practice has contributed to the increase of greenery in villages, improvement in hygiene and health, knowledge about legal affairs and social evils.

#### **Problems encountered and resources required**

The institute sometime faces difficulty in assigning medical officers and resource persons from the practice due to their prior commitments. There is some amount of negligence among the rural lot to get engaged in such practices.

#### **Notes:**

The practice is unique. It creates a notable bonding between the institute and the surrounding society.

## **Best Practice No. 02**

### **Title of the Practice: “Top Ten System”**

#### **Keywords:**

Top ten, academic, performance, achievement, books,

#### **Goals and Objectives**

3. To recognise the top performing students.
4. To encourage furtherance of their achievements.

#### **Context:**

The institution needed to address the contextual features or challenging issues in designing and implementation of “Top Ten System” are as follows:

The institute’s student intake majorly comes from rural areas as Sankeshwar town is surrounded by several villages. The economic background of the students is average. They needed encouragements so that they can excel in their academic performances.

#### **The practice:**

Every year after the enrolment sheet of students is prepared, the top ten students are selected from B. Com I, B.Com II and B.Com III year batches by considering their previous academic performances. The Library Committee finalizes the Top Ten students’ list for the academic year under the chairmanship of the Principal. When the semester classes commence, these recognised students are issued with a set of Books as per their preference. The students will refer the books until the semester end examinations are over and then submit back to the Library. The process will continue for next successive semester.

#### **Evidence of success**

The above elaborated practice enhanced the performance level of the students those are in the list of Top ten. The other students get motivated to enter the ‘top ten’ list in the upcoming academic year.

#### **Problems encountered and resources required**

Sometimes the library may not be in position to issue preferential title books to the students. This issue is managed by adding study resources as per the necessity. The required recourses for this practice are met by the institutions budget.

#### **Notes:**

The practice is unique. It instils morale in students.
